**THE ONYFIX®
NAIL CORRECTION SYSTEM:
PAINLESS – SAFE – EFFECTIVE
– INNOVATIVE**

The Onyfix® Nail Correction System is a revolutionary new product for the treatment of ingrown and involuted nails. Your foot specialist will apply this customized system onto the affected nail, which then corrects the shape over time through natural nail growth. The system is completely painless to apply and to wear!

- Painless application process
- Non-invasive - no needles or surgery
- Provides immediate, lasting pain relief
- Corrects the nail shape through natural nail growth
- Evidence-based studies proving efficacy
- No restrictions on activities (swimming, sauna, nail polish, etc.)
- Suitable for all, including children, high-risk clients and those with diabetes

The Onyfix logo features a stylized 'O' composed of three overlapping circles of varying sizes, followed by the word 'nyfix' in a lowercase, sans-serif font. A registered trademark symbol (®) is positioned to the upper right of the 'x'.

**THE REVOLUTIONARY
PAIN-FREE,
NON-INVASIVE
NAIL CORRECTION
SYSTEM**

GET HEALTHY, BEAUTIFUL NAILS AGAIN WITH ONYFIX®! HOW DOES ONYFIX® WORK?

With Onyfix®, almost all types of ingrown and involuted nails are treatable.

1. Your certified Onyfix® specialist will first roughen and clean the nail in preparation for the application.
2. The Onyfix® is like a soft putty and is applied to the nail. A spatula is used to shape it into a strip and place it in the right position. A special blue light is then used to harden the Onyfix® and bond it to the nail. Don't worry, the light is safe and doesn't require protective eyewear!
3. The hardened Onyfix® strip ensures that the shape is maintained during your nail's natural growth. Some nails might require more than one cycle in order to properly correct the curvature.
4. After successful treatment, your foot specialist will remove the Onyfix® from your nail easily and painlessly!

PAINFUL, INGROWN TOENAILS?

Did you know that:

- Ingrown toenails that keep growing untreated can grow deeper and deeper into the tissue?
- Ingrown nails can cause pain with every single step and even change the way you walk?
- Inflammation of the nail fold can cause serious complications?

Don't continue suffering with pain or risk serious complications from untreated ingrown nails. Contact your Certified Onyfix® Specialist today for your painless, customized Onyfix® application!
